ANNUAL REPORT;
STATUS OF RURAL HOUSING, RURAL RENTAL HOUSING, FARM LABOR HOUSING
AND RURAL HOUSING SITE LOAN ACCOUNTS
January 1, 1972

UNITED STATES DEPARTMENT OF AGRICULTURE
FARMERS HOME ADMINISTRATION
Program Analysis and Statistics Staff
Budget Division

This annual report covers the status of accounts for all Rural Housing, Rural Rental Housing, Farm Labor Housing, and Rural Housing Site borrowers as of January 1, 1972. All tables show cumulative data. The payments on the four types of Housing loans are those applied to the borrowers' accounts through January 20.

The Rural Housing accounts include all borrowers who received a direct Section 502, Section 503, or Section 504 loan from the beginning of the program in November 1949 and borrowers who received an insured Section 502 loan from November 1965. Tables 1 through 5 reflect the total RH accounts by the appropriate borrower classification. Table 6 reports the payments and schedule status for all active borrowers who received loans on nonfarm tracts. Table 7 through 16 show the payments and schedule status for active borrowers by the various loan types.

The borrowers reported in table 2 paid in full or otherwise satisfied their Rural Housing loan accounts from income, through refinancing within the Farmers Home Administration or through other credit sources, from sale of farm, through repossession, by refund, or through assumption agreement. The borrowers who satisfied their accounts through assumption agreement are not included in the total number of borrowers in table 1 or 2. For purposes of this report the transferor and transferee are considered one borrower. The number of borrowers' accounts paid in full or otherwise satisfied, by type of loan, as reported for the U.S. totals in table 2 is partly estimated. Borrowers who had paid in full or satisfied their accounts in the early years of the program cannot be identified by type and are included as Section 502's in this release. However, the amounts by loan types are correct.

Borrowers who received both direct and insured Rural Housing loans are included in each type. Also borrowers who received more than one direct loan or more than one insured loan are duplicated in the total number by fund if one note is paid and the other active. The paid account is included in table 2 and the outstanding loan in the appropriate tables for active borrowers.

The Rural Rental Housing loan accounts are reported in tables 18, 19, and 20. The first Rental Housing loans were made in the 1963 fiscal year. The Farm Labor Housing loan accounts cumulative from the beginning of the program in the 1962 fiscal year are included in tables 21, 22, and 23.

The first Rural Housing Site loans were obligated in the 1970 fiscal year. These accounts are reported in table 24.

Rural Housing and Labor Housing grants are not included in this report.
